Dear Parents and Grandparents,

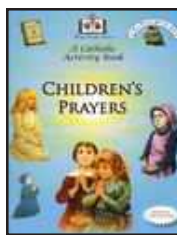

The activity books in CREATIVE CATECHISM series have been designed to help teach your children the Catholic Faith in a manner that is instructive, creative and fun. Your child should first read the mini-catechism lesson at the beginning of each book. It explains the book's theme according to the teachings of the Church. The lesson can be studied alone, but we encourage you to read it with your child for a shared learning experience. The puzzles and activities have been designed to reinforce the points explained in the text.
